

Push[®] ortho Ankle Brace Aequi Junior

Ankle support for growing children

- Provides support for moderate ankle instability with diagonal non-elastic straps
- Adds compression with adjustable elastic straps
- Allows normal gait and safe sports participation
- Stabilizes ankle even without shoe
- Creates soft, comfortable feel and wicks moisture through the Sympress[™] microfibers
- Can be applied independently by most children once taught

Indications

- Acute or sub-acute medial / lateral ankle ligament injuries
- Post-surgical or non-surgical ankle fracture treatment
- Prevention of recurrent ligament injuries
- Chronic instability

Measurement / Sizing

One size—Right or left ankle, for children 6-12 years old:

- Ankle measurement of 9 - 10 1/2" (23 - 27cm)
- Children's shoe sizes 12 - 5.5

Easy application!

Apply over sock and inside a lace-up shoe. Be sure foot is flat on floor and straight, with ankle bent to 90°. Securely close strap (1) and then strap (2)

Wrap the elastic strap (3) up diagonally across the foot, around the back of the ankle above the heel and fasten it to itself

Wrap elastic strap (4) up diagonally across foot, crossing over strap (3), around the back of ankle above heel, and fasten it to itself
